

SU-A

INTELLIGENT BAR CODE INSTRUMENT

- 10.1" TOUCH SCREEN (WINDOWS & ANDROID)
- DUAL WEIGHING PLATFORM
- 3" RECEIPT & LABEL PRINTER

SIMPLE AND FAST OPERATION

EASY MANAGEMENT

STABLE PRINTING

THE ULTIMATE TOUCH CONTROL

CUSTOMIZED SOFTWARE

MULTIPLE PRINT FORMAT

WiFi APPLICATION

MULTILINGUAL SWITCHING

LARGE TOUCH SCREEN

Technical parameter

High resolution color screen	10.1 inch color screen
System	Optional WINDOWS and Android system, the system is stable, low power consumption, fast and efficient operation without delay
Powerful background software	The background software can customize the design print format and edit diverse information. Create a personalized customer interface; Edit and manage product and equipment information, issue and update product/equipment parameters/promotion information, simple and fast; Upload transaction records and generate reports, support ERP interconnection. late
Simple operation	Cartridge printer compartment and paper return function make paper replacement and maintenance easier
Stable quality	Industrial-grade material has strong heat dissipation and high load printing

Multifunctional applications are more powerful

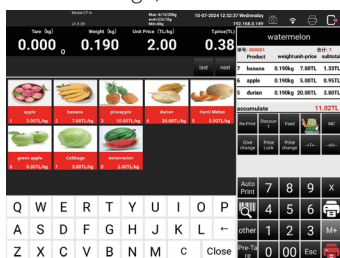

INDUSTRY

Industrial inspection dual purpose: the operation interface can be changed quickly
Count and check mode, graphical display can easily read the status

COMMERCE

Intuitive design, zero threshold to start

Including the standard interface function is powerful

2xUSB2.0, 2xRS-232, 1xRJ45 network interface, 1/0 port (5 in and 5 out), WIFI meets the different needs of customers
